

The President's "E" *Award*

Washington, DC May 14, 2024
Diane Farrell, Deputy Under Secretary for International Trade
Award Accepted by Miss Skylar Hall and Doug Hall

Introduction

ABOUT THE AWARD

Created in 1961 by Executive Order of the President, the President's "E" Award is the highest recognition a U.S. entity can receive for making a significant contribution to the expansion of U.S. exports. U.S. companies that have successfully grown their exports in overseas markets, along with companies or organizations that have facilitated the exports of others, are nominated by the International Trade Administration's (ITA) U.S. Commercial Service, within the U.S. Department of Commerce.

Overview

HISTORY IN THE MAKING

The U.S. Department of Commerce awarded AcraDyne, the Manufacturing Division of AIMCO, the President's E Award for its sustained commitment to national export expansion. The award recognizes AcraDyne's global success, exporting to 38 international markets over the last 25 years, and commends AcraDyne for its extensive customization of products for export.

This 63-year-old award is the highest honor given to exporters. AcraDyne was selected by The U.S. Secretary of Commerce, Gina Raimondo, for its contribution to national export expansion efforts that support the U.S. economy and create American jobs. "Trade impacts the lives of every American worker, business and community," said Raimondo. "I am proud to recognize this year's President's "E" and "E Star" award recipients for their efforts and contributions to increase economic prosperity across our country and further position the U.S. private sector as the partner of choice in markets around the globe."

AcraDyne offers a full line of high-torque, traceable, and critical bolting systems. Specializing in custom-engineered solutions and with more than 800 possible tool configurations, AcraDyne provides the most complete portfolio of high-capability bolting solutions and is headquartered in the Pacific Northwest in Portland, Oregon.

Beyond Tools

CUSTOMIZED SOLUTIONS

AcraDyne provides solutions that are Beyond Tools, offering fully customized systems for any application, providing quality solutions from the factory floor to the field. It is with great pride that the products AcraDyne manufacturers are Designed and Assembled in the USA.

Patented Designs

The U-Shape was designed specifically for a leader in the Renewable Energy Industry for Onshore/Offshore Wind Turbines

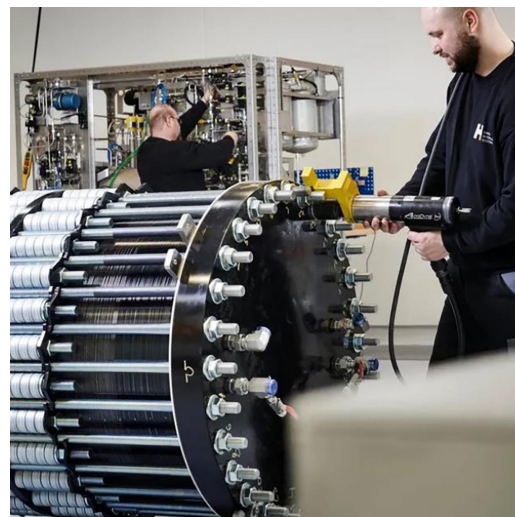

Quality Solutions

From factory floors to fields across the world, AcraDyne ensures the highest level of quality and reliability

Innovative Technology

AcraDyne's expertise helped produce integrated solutions for the world's most powerful Offshore Wind Turbine

Industry Expansion

Expanding into hydrogen, AcraDyne's commitment is helping pave the way for a cleaner more sustainable future

AcraDyne offers the world's most complete portfolio of high capability and critical fastening solutions, all designed and assembled in the USA

Innovative Technology

THE WIND ENERGY INDUSTRY

Increasingly stringent critical fastening requirements are driving the wind industry toward faster and "smarter" production and Industry 4.0 integration, as digitalization is now a necessary requirement, and data a vital tool for quality assessments.

AcraDyne has been chosen to supply high-capability "smart" tooling on all critical fastening applications for Wind Turbines for several large manufacturers in the industry such as GE Vernova, Siemens Gamesa, Wanzek, Duke Energy, EDF Renewables, Senvion, Vestas, and many more.

These brands selected AcraDyne products for their unique features and technical capabilities that outperform the competition.

Oregon Roots

GLOBAL IMPACTS

Exporting has resulted in substantial gains for the business. The establishment of AcraDyne marked a new market entry overseas, leading to the creation of numerous jobs in Portland, Oregon, Mexico, and across the globe. It also forged many strong partnerships in Asia, Europe, and South America. We now have an office in Chihuahua, Mexico, with 31 full-time employees.

AIMCO currently exports to 38 countries across Europe, South America, Asia, North America, and Australia. As a global company for more than 50 years, a manufacturer for 25, and a third-generation family company, AcraDyne is extremely passionate about being a part of the Energy Services value chain, aiding the mission to electrify and decarbonize the planet to create a cleaner and more resilient world.

Thank You

THIS AWARD COULD NOT HAVE BEEN ACHIEVED WITHOUT EVERY ONE OF OUR TEAM MEMBERS AT ACRADYNE AND AIMCO, AS WELL AS OUR LOYAL CUSTOMERS. EVERYONE HAD A HELPING HAND IN OUR CONTINUED SUCCESS.
