

Critical Tools for Critical Jobs

Critical bolting demands tools that deliver high torque with superior performance. Coupled with AcraDyne's controller, the HT Series tools combine these features in an electric, high-torque bolting system that beats the competition in accuracy, speed, and safety.

Designed and **MADE IN THE USA**

ACCURATE

One of the most accurate high-torque tools in the world

FAST

Up to 100 times faster than hydraulic tools

POWERFUL

12,000 Nm

ERGONOMIC

Robust design with two handle configurations

INNOVATIVE

The world's **ONLY** traceable system at the square drive
