High-Performance Cordless AB Series

**INNOVATIVE TOOLS
IN A POWERFUL PACKAGE**

AcraDyne Cordless AB Series

Work Smarter, Not Harder

AcraDyne's high-performance cordless tools deliver precise torque and/or angle to the fastener. Innovative technology guarantees repeatable torque results every time, ensuring you meet your most important goal – creating quality products. The tools are available in two model types:

1

AB-MTA

Transducer
Shut-Off
Tool

2

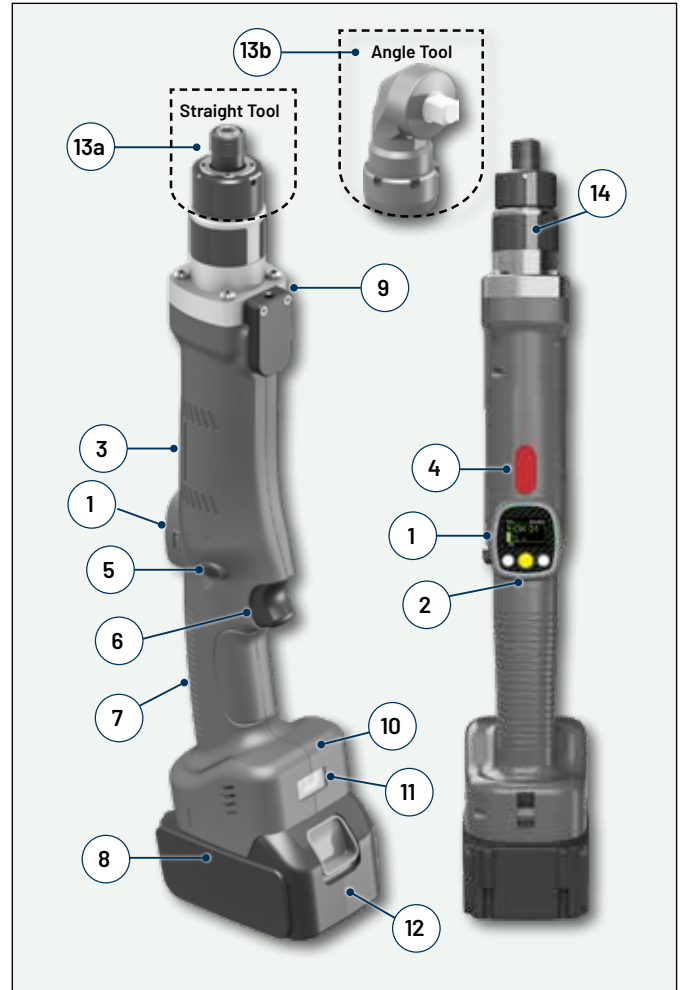

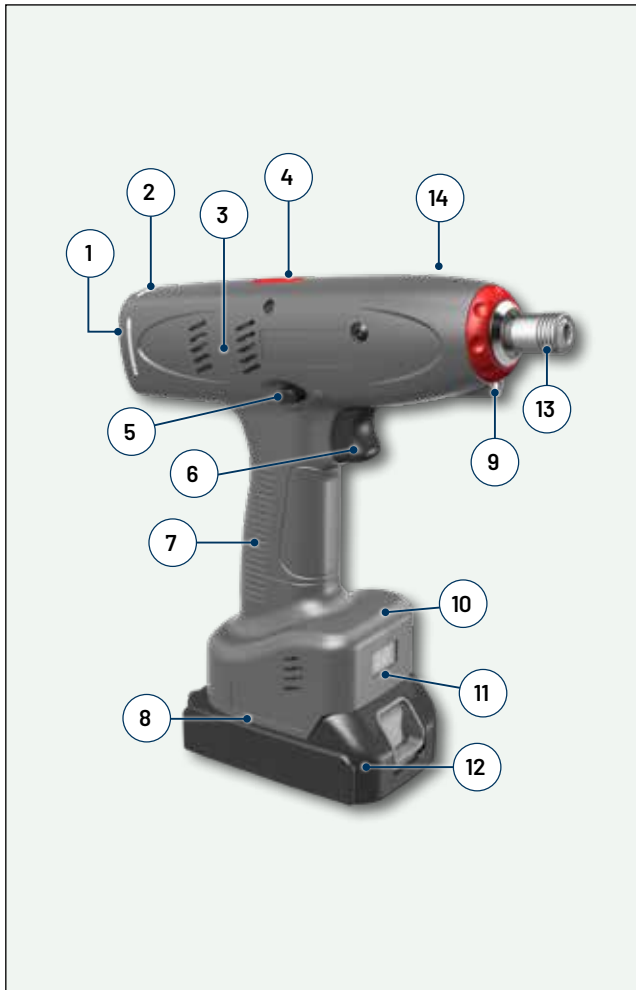

AB-CTA

Clutch
Shut-Off
Tool

FEATURES AND BENEFITS OF ALL AB TOOLS

- Self-Controlling Tools
 - Can run stand alone or in conjunction with an iBC ACE Platform controller as a line interface (see page 8)
- Tool programming done with no-cost AcraDyne Tool Manager software using USB cable interface to PC
- Selectable vibration alarm provides tactile feedback
- 99 programs with 6 steps per program available
- Job functionality for sequencing and/or bolt counting
- Programmable
 - Torque
 - Angle
 - RPM
 - Time
 - Fastening direction
- Multicolor LED status screen
- 150,000 results stored on-board

Features

- | | | |
|--|---|--|
| 1 OLED Display | 7 Ergonomic handle | 13 1/4" hex socket adapter (Pistol Tool) |
| 2 Multi-color LED control light | 8 USB interface (in battery compartment) | 13a 1/4" hex socket adapter (Straight Tool) |
| 3 Brushless high-powered motor | 9 Powerful LED | 13b 3/8" square adapter (Angle Tool) |
| 4 Color index | 10 Optional WiFi module | 14 Clutch Access (MTA models) |
| 5 CW / CCW switch | 11 Optional scanner | |
| 6 Large trigger | 12 Premium Li-Ion battery | |

MULTI-COLORED LED CONTROL LIGHT

The AcraDyne cordless series has a LED control function light that is near the display and spans the circumference of the tool. The light indicates tool status.

The time-length of the light can be programmed as glowing, flashing, or pulsating for each LED signal.

Color Indicator:

- Screwdriver is released
- Tool is on reverse mode; counter-clockwise rotation
- Tightening was successful (OK)
- Error at tightening (NOK)
- Tool needs acknowledgement of the result or action of the worker

LED Display Module

Provides Quick Operator Feedback

Tool serial number or program number of the active program: P03

Counting function: Counts the processed screws per fastening instance e.g. 01/02 means 1 screw of 2 successfully fastened: 01 / 02

Function display: green: connected, yellow: searching for connection, red: no connection: OK 01

Display text window: Shows the results of the fastening process, warnings, commands, symbols, and texts to make controlling the tool easier: Nm < 3.00 95

Battery display: Shows 5 different charging statuses of the battery: OK

Status description: OK

Torque in Nm: Nm < 3.00 95

Angle in degrees: 95

Display elements can be modified in AcraDyne Tool Manager Software to show precise values for screw joints, rotational angle, specify the counting process, and set unit values to Nm, lbf-in, lbf-ft.

DISPLAY OPERATION

Confirm the entry / selection

Go to the next menu point

Cancel/ decline the entry/ selection

Easy to read results: User can program which type of screen to display: OK/NOK or Happy/Sad Face icons.

An application can require that the product ID be scanned before the tool is released. Symbol can also be a car.

An application can require scanning of components/assemblies before tool is released.

This screen indicates that the tool is locked and is disabled by line controls via the iBC controller over Wifi.

CTA Series

Controls Torque and Angle

The AB-CTA Series provides the most sophisticated option in the AcraDyne cordless tool line. The Transducer Shut-Off means precise torque measurement with high accuracy and traceable results. Transducer shut-off allows speed adjustment and provides the ability to reject conditions such as cross threads and double hits on a fastener.

AB-CTA Torque Ranges:

- Pistol Tool: 1.5-17 Nm
- Straight Tool: 1.5-17 Nm
- Angle Tool: 1.5-120 Nm
- Tubenut Tool: 3.0-24 Nm

MTA Series

Measures Torque and Reports Angle

The AB-MTA Series controls torque to the fastener with a precision Clutch Shut-Off mechanism. This technology increases productivity by allowing the tool to run at higher speeds and with minimal overshoot. The highly accurate clutch reduces torque reaction transmitted to the operator through its speed of shut-off at the moment reaction forces are generated.

AB-MTA Torque Ranges:

- Pistol Tool: 1.0-17 Nm
- Straight Tool: 1.0-17 Nm
- Angle Tool: 2.5-115 Nm

For simple adjustment, the MTA series provides easy clutch access.

UltraTorque MTA Series

Measures Torque and Reports Angle in Higher Torque Applications

The AB-CTA **UltraTorque** Series provides a sophisticated option for higher torque applications. The tool is transducerized for precise delivery of torque and angle to the fastener and provides a wide variety of tightening strategies, including torque, angle, torque plus turn, torque minus turn, and more. It is available with a Two-Hand, No Tie Down Button to ensure operator safety from accidental contact with the reaction bar. Standard offset, deep offset, and flat reaction bars are available. Custom reaction bars are available by request.

AB-MTA UltraTorque Range:

- Pistol Tool: 250–3,000 Nm

AcraDyne iBC Gen IV Controller

Clear and Concise Connectivity

AcraDyne's iBC Gen IV Controller maximizes production quality seamlessly by giving the customers' assembly process flexible line integration, real-time monitoring, and simple system programming.

Easy to Use

- Same simple platform as the other GEN IV models, the user friendly interface is easy to use and simple to set up

Cost Effective

- No third party data integrator required, the data can seamlessly transfer from the tool to the controller via WIFI
- FREE software - No hidden fees

Flexible

- Ability to adapt to a wide range of plant protocols
 - Open Protocol
 - Device Net
 - CC Link
 - Profibus
 - PFCS
 - Jtekt
 - XML
 - Toolsnet

Batteries & Chargers

BATTERIES

- Li-Ion for best energy density
- Deep-discharge protection prevents battery failure
- All AB models utilize the same battery connection and chargers
- Batteries available in 2.5 Ah or 5.5 Ah

AB-B1825LI

AB-B1850LI

Battery Model #	Voltage	Type	Capacity	Weight
AB-B1825LI	18V	Li-Ion	2.5 Ah	.8 Lb/.35 kg
AB-B1850LI	18V	Li-Ion	5.0 Ah	1.3 Lb/.6 kg

AB-C18110

BATTERY CHARGERS

- Battery defect detection
- Microprocessor-controlled charging: Charging time is dependent on the capacity of the battery
- Reverse polarity protection
- Automatic battery voltage detection
- Multi-bay charger includes battery adapters
- All AB models use the same batteries and chargers

AB-C18-4W

Model	Description	Output	Input	Charging Time	Dimensions (W/O Battery)	Weight
