

**ZERO  
TORQUE  
REACTION**

**NO REACTION  
BAR REQUIRED**

**SAME TRUSTED ACRADYNE  
PERFORMANCE**

**ACRADYNE® HT TOOLS:  
HEICO-LOCK®  
REACTION-FREE  
WASHER COMPLIANT**

**ADVANTAGES OF THE ACRADYNE® + HEICO-LOCK® REACTION-FREE SYSTEM**

**OPERATOR  
PROTECTION**

Heico reaction-free washer absorbs and neutralizes torque forces, protecting the operator from sudden kickback or strain

**GREATER  
MOBILITY**

The washer system already eliminates torque reaction, so movement-restrictive devices like arms and torque tubes are unnecessary

**SUPERIOR  
PRODUCT  
APPEARANCE**

Removal of the reaction bar means no witness marks on a reactive surface

**LOWER  
COST**

Reaction bars can be costly and time consuming to use. Time is money and the ability to easily engage an application – knowing that safety is built in – gives you peace of mind and saves time

# ANOTHER STEP IN BOLTING INNOVATION

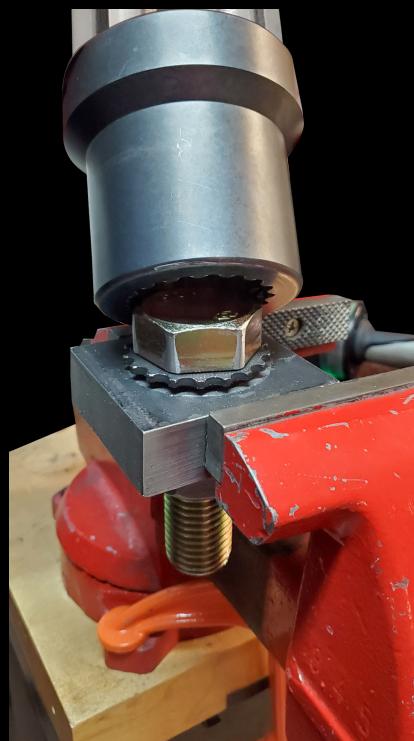

Already a pioneer in custom-engineered solutions for demanding bolting applications, **AcraDyne® HT tools are now fully compatible with Heico-Lock® Reaction-Free Washers**, bringing a new era of efficiency, safety, and precision to your assembly operations.

## ACRADYNE® + HEICO-LOCK®: REDEFINING PRODUCTIVITY AND SAFETY IN BOLTING

This powerful combination offers:

- **Improved Operator Safety:** Reduced risk of pinching, crushing, or slipping injuries
- **Easy for Operators to Engage Tool to Part**
- **Consistent Precision:** The AcraDyne® Gen IV Ecosystem provides traceable, repeatable tightening accuracy
- **Elimination of Reaction Bars:** Eliminate the need for additional mounts or supports
- **Surface Protection:** No damage to surrounding surfaces or coatings
- **Easy Configuration:** Simple addition of the HEICO Tool Adapter to an AcraDyne 6000, 7000, 8000 or 9000 Series Gearbox
