

The most complete portfolio of high capability bolting and critical fastening solutions for the automotive & appliance industries

AcraDyne's nutrunners are designed for ultimate operator safety, with multiple handle configuration options for optimal tool handling

The AcraDyne line increases productivity while also providing optimal monitoring and control with a built-in integral transducer

During these uncertain times, shipments may be delayed, halting projects and costing thousands. Because we are Designed and Assembled in the USA, we are available and ready to meet your needs

2000 Series Mid-Exit Nutrunner

3 – 55 Nm

- Superior size, speed, and duty cycle compared to competitors' tools
- Durable Nylon motor and handle housing
- Aluminum motor and gear housing
- Onboard lights and audible signal for operator feedback Reduced tool length due to cable exiting in front of grip surface
- Reduced torque reaction compared to pistol-style tools
- The inline handle, coupled with the ergonomic hand positioning, allows for increased leverage and decreased strain on the wrist
- If used with a spring balancer, the tool hangs naturally near its center of gravity, the cable is controlled by the balancer
- Front positioning of cable provides for easy cable management

All AcraDyne DC Controlled corded tools and controllers are Designed and Assembled in the USA
