

AIMCO Job Description

AIMCO

Service and Repair Technician (Canton, MS)

Compensation: \$55K - \$60K/Year - M-F 7am – 4pm

Employment Type: full-time

SUMMARY

Coordinates instruction and performs application and maintenance support of AIMCO assembly tools within the Nissan Canton Manufacturing Plant. This support consists of installation, programming, maintenance, and repair of machinery and or equipment as well as acting as a sales support resource as required.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following (other duties may be assigned):

- Primary service repair and technical support at Nissan Canton; provides applications engineering support, customer visits and product demonstrations
- Provide installation support, troubleshoot technical issues, and provide technical guidance and training of AIMCO products as required. Assembly line calls will be required to service AIMCO tooling.
- Support service and sales opportunities as directed by AIMCO's Engineering and Sales Management at Nissan Canton only.
- Work closely with the AIMCO Repair and Service Department: Communicate product issues and support efforts for product improvement, present daily repair reports and parts orders, return failed parts for engineering evaluation and support requests.
- Will participate in weekly Technical Field Services meetings chaired by the Engineering Manager of Technical Services.
- Will have a dotted line report to AIMCO's local Regional Sales Manager. Will be in daily communications with this RSM and attend monthly meetings with Nissan Canton Assembly Engineers in a supporting role.
